What products and/or services do you offer?

Longarm custom quilting, Longarm rental, Custom Design, Quilt and longarm teaching, and Pattern design mostly for Hoffman of California Fabrics

What does a typical day on the job look like for you?

I am in the studio most days either longarm quilting for clients, making custom quilts for customers from T-shirt quilts, memory quilts, or any other design they require, designing patterns or teaching classes. I love working with fabric, I love designing and custom quilting is also a favorite way to pass my time in the studio. I usually run to pick up my daughter from school in the afternoon and she comes back to the studio for homework or device time while I finish up.

When did you first start quilting?

I started quilting with a friend in 1988. I had been sewing for several years prior to that time.

Who taught you how to quilt?

I took Home Economics in High school and that is where I learned to sew but a friend that I worked with at Jo-Ann Fabrics taught me to quilt

What is a favorite product/service you offer right now?

My patterns are one of my specialties. They are being carried by Checker ?Distributors and I also direct ship to Quilt shops across the US

What personal quilting project are you currently working on?

A friend is having a son in early July so I am designing a special quilt for her and the baby

What makes our quilting community special to work in?

Quilters are a special breed! They are friendly, helpful, and so creative. I love to take classes, even if you know the process, you will learn something in every class

Anything else you'd like us to know?

I have so enjoyed the opportunity to take a few classes with the guild as well as teach a couple and do some demos during other events thru the guild. Everyone has been so welcoming and friendly. It is fun to be able to drive over and share in the fun! Thank you for allowing me to participate.
