

September 21, 2021

Dear Donna & Gallatin Quilt Guild,

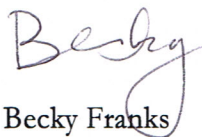

Thank you, thank you, thank you! We were able to invite 41 women to attend our Mending in the Mountains retreat this past month, and this would not have been possible without **YOU!** This event was held September 10<sup>th</sup>-12<sup>th</sup> at the 320 Guest Ranch in Big Sky. With COVID precautions in place, we were able to provide women with much-needed connection and a community. We also heard loud and clear that the support we provide at CSC is needed now more than ever, and our ability to respond is because of your generosity.

**We are happy to announce with your partnership, the participants learned coping skills to reduce anxiety and find growth and direction as we hunker down for the winter.** I have attached some testimonials where you will learn more about the benefits that were gathered this year at Mending in the Mountains. All our programs are *free-of-charge* to participants because of caring people and businesses like you. CSC continues to provide education and emotional support daily through our virtual and in-person programs. We are so truly grateful for you! We hope that we can partner with you again next year and continue to serve and **empower women who are facing cancer.**

Attached you will find more details on how CSC was able to honor your sponsorship this year. Please reach out if you have any questions. **Thank you!**

Sincerely,

Becky Franks  
CEO | Cancer Support Community Montana

Thank you for the bags ~  
they loved them!
