

FREE. — —- Vintage Pfaff Hobbylock Model 496 Serger— — FREE

Not sure of the date. I bought it used and never tried it. The foot pedal does work, the instruction manual is there and most of the parts from what I can see. Also a lot of Polyester Thread Cones. One of the cone holders has a small piece missing that doesn't affect use.

If for nothing else might be good for parts. I didn't find a place to check age. The serial number is 48826.
